

Congratulations. You're moving into one of Birmingham's best connected addresses.

# LIVE CONNECTED

Allegro has been awarded a WiredScore Certified rating for its great digital connectivity.

**WiredScore** is the world's only internationally recognised digital connectivity rating scheme. And the good news is your new home passed with flying colours. This means you have a fast, reliable connection. It means you have a choice of providers. And it means your landlord cares enough about the people who live here to make sure their building is ready for the technologies of tomorrow.

## Broadband, sorted. Actually, make that more than sorted.

There's full fibre internet all the way to your new apartment (and this isn't as common as you might think).

A choice of fast or superfast packages. (Full disclosure, superfast may be more expensive.)

## Ready for the future...

Your new home is already way more digitally advanced than the average Birmingham home. And the infrastructure is in place to make it even more so.

## Safely connected, everywhere.

Enjoy WiFi wherever you want. Be that The Lounge, The Wellness Centre or the shower (though we're not sure we'd recommend that).

Home is where we should feel safest. And with the security controls on your WiFi, your privacy and online safety's in good hands.

## Innovation ready.

Your apartment's designed to handle not just the digital needs of today, but those we haven't thought of yet. With extra space for connections to future technology.

The dedicated tenant app takes care of everything from laundry to pet sitting, and you can even book a personal trainer to meet you at the gym. Also receive exclusive offers for local events.

**Now, time to enjoy your new home**
