Emerging preferences and choices

Updated design preferences

Results are in...

Thank you to all Verity Close residents who responded to the Emerging Preferences and Choices survey. We asked residents to give their preferences on windows, external wall insulation, new roofing and more. Lancaster West Neighbourhood Team have collected the votes and we can now reveal the winning options.

Roof finish materials:

New slate tiles

New slate roof tiles chosen by residents will work in tandem with the new non-combustible insulation that is being added to loft spaces of the Close. This new insulation will improve the airtightness of the building. This decreases the amount of energy wasted through leaks and gaps therefore improving energy efficiency of your home.
