To whom it may concern,

### **GLA 2030 Future Neighbourhoods Application – Letter of Support**

We are writing on behalf of the Lancaster West Residents Association in support of The Royal Borough of Kensington and Chelsea's (RBKC) Council proposal for the 2030 Future Neighbourhoods application in Notting Dale.

We are committed to transforming Lancaster West into a model 21<sup>st</sup> century housing estate that is carbon-neutral by 2030, and supporting activity to ensure that the same benefits can be received across the Notting Dale ward.

We therefore confirm that we would like to partner with the council to support with engaging the community and delivering a series of initiatives and together as part of this application.

We have been working with the Lancaster West Neighbourhood Team for several years and partnered on successful projects, including the installation of the first living green wall on a UK social housing estate, and the first low-energy home in the borough.

We are also working closely with the council to deliver a clean, green local heat network, which will also ensure a just transition for residents.

The Lancaster West Resident Association has engaged with the development of the Heat Network proposal through formal consultations at key project milestones, and in an informal capacity as residents through the ongoing estate-wide resident co-design process.

We strongly support this application which will not only tackle environmental issues in a holistic way; but will embed green recovery at the heart of a Grenfell recovery, in a ward that is 70% social housing.

**Key contact details:** Abbas Dadou and David O'Connell

**Position:** Chair and Vice Chair of the Lancaster West Residents Association

**Emails:** [chair@lancwest.com](mailto:chair@lancwest.com) and [vicechair@lancwest.com](mailto:vicechair@lancwest.com)

**Mobile number:** 07875336551 and 07957133168

I confirm all the above information is correct. If you have any questions, please do not hesitate to get in touch.

Kind regards,
