Reference for GLA 2030 Future Neighbourhoods Application – Letter of Support

To Whom It May Concern,

I write in my capacity as chair of [Silchester RA](#) in support of The Royal Borough of Kensington and Chelsea Council (RBKC) proposal for the 2030 Future Neighbourhoods application in Notting Dale.

We strongly support this application and commit to working with RBKC in the delivery of the Climate Change Awareness and Education Programme, by delivering the following activities:

Project title - The Art of Sustainability- Reduce, Reuse, Recycle

We will run 7 x two hour art and craft workshops in our safe and warm residents' room at Silchester Estate from 3rd December to 4th February.

This will be delivered by Silchester Residents' Association, facilitated by local artist, [Constantine Gras](#).

Project title: Creativity for change

25 x two hour workshops from 25th Feb 2023 to 28th October 2023

At the end of these projects, we aim to organise an exhibition of the works produced by participants and 50 copies of printed books containing their artwork and written words. We also aim to create a film and a series of podcasts.

Following a previous art project we delivered called [ART FOR SILCHESTER](#) run for Grenfell affected local residents and in the context of the cost of living and climate crisis, we would like to create environmental arts projects and to make climate change and environmental concepts accessible to everyone (of all ages). Our aim is to engage and empower the most disadvantaged of our communities and the residents who are normally harder to reach.

Through this letter, we acknowledge specific roles and responsibilities we will fulfil in this partnership.

Yours sincerely,

Nahid
