

**Reference for GLA 2030 Future Neighbourhoods Application – Letter of Support**

To Whom It May Concern,

I write in my capacity as Head of Business Development from Bikeworks in support of The Royal Borough of Kensington and Chelsea Council (RBKC) proposal for the 2030 Future Neighbourhoods application in Notting Dale.

We strongly support this application and commit to working with RBKC in the delivery of the Active Travel initiatives.

We therefore confirm that we would like to partner with the Council to support with engaging the community and delivering a series of initiatives and together as part of this application, including: Cycle and Cycle Mechanics training, Cycling for Wellbeing programme, Cycle Activity Leaders Training and Mentoring, and a Local Cycle t Taxi etc. The aim of these programmes is to empower local people to cycle and to be sustainable in enabling local people in Notting Dale to work within their community to facilitate cycling.

Bikeworks specialises in inclusive cycling and training, offering skills and qualification for local people to enter the cycling sector

We have been working with the Council for over 7 years and continue to run an all ability cycling club, cycle training, mechanics training and Dr Bikes

We strongly support this application which will not only tackle environmental issues in a holistic way; but will embed green recovery at the heart and bring benefits for the community, particularly support the most disadvantaged residents and unrepresented groups in Notting Dale.

Through this letter, we acknowledge specific roles and responsibilities we will fulfil in this partnership.

We also have match funding to support with the delivery of a Local Cycle Taxi funded by Department for Transport through a grant to tackle loneliness with transport.

I confirm all the above information is correct. If you have any questions, please do not hesitate to get in touch.

Yours sincerely,

**David Dansky**
