Sarah Cross	LWNT, Sustainability Assistant Project Manager
Andros Loizou	RBKC
Shaun Haden	Head of Strategic Programmes & Innovation (LWNT)
Khadra Ibrahim	LWNT, Community Development Officer
Krishna Sarda	NHS

1.0 FUTURE NEIGHBOURHOOD PARTNERSHIP OVERVIEW

1.1 Hannah explained what the Future Neighbourhoods 2030 programme is and how the programme was released by the Mayor of London and GLA aiming to tackle key environmental issues in London.

1.2 We are currently delivering on Phase 1 where 30 with projects to be finished in March.

1.3 Currently working on a funding application for Phase 2 of the scheme and have proposed projects based on previous action plans, lists and specific suggestions from community resident associations, delivery organisations and teams across council.

1.4 A full qualitative analysis to understand trends and priority areas with comments being tagged to key themes. We developed the projects with community partners and internal delivery teams.

2.0 Phase 2: Proposed projects

2.1 Building a Notting Dale Nature Recovery Network:

Community Cooking and Community Kitchen Gardens: Looking at supporting local food growing and cooking to reduce costs.

Sustainable urban drainage: Delivery in Stoneleigh Place/ Street. To improve resilience against flooding.

Greening Notting Dale Ward: To increase and improve green spaces and create volunteer opportunities.

2.2 Creating a Cleaner and Healthier Notting Dale:

Active Travel Programme: Continuation of phase 1 project looking at cycling training, bike repairs and community led bike rides.

Air Quality Campaign Pilot: Installing monitors to measure air quality and how this changes over time. Internally and externally monitored and to use this to drive a comms engagement campaign to help protect against poor air quality and ways in which it can be improved locally.

David O'Connell: suggested to follow up on the Imperial running a cleaner air quality study in the area.

2.3 Delivering new Green Jobs and Skills in a Circular Economy:

Climate Change Awareness Campaign and Education Programme: Supporting an understanding of climate change and what we can all do, linking into the Green Skills Academy.

Community Warm Spaces Programme: Council are helping to facilitate but it will be existing community spaces in the area, looking at opening them up beyond current open times as warm spaces for residents. Also, spaces to access training offers and advice on energy bill etc.

Household Goods Redistribution and Upcycling Scheme: Taking any usable goods and furniture from properties and then expanded to taking donations to redistribute. Also giving opportunities for people to repair and upcycle these goods.

Notting Dale Community Laundrette and Refill Station: Help support people to save energy and costs associated with cleaning.

2.4 Fabric First: Notting Dale Goes Net Zero:

Henry Dickens Court Estate - Improving the Thermal Performance of Social Homes. Part of a wider programme to improve energy efficiency in these homes.

Schools Retrofit - The Route to Decarbonisation for primary schools. Continuing from a phase I project.

2.5 Powering Up for the People:

Co-designing the Notting Dale Energy Centre – part of the Notting Dale Heat Network: Providing low carbon heat across Notting Dale. Creating a visual centre for the Heat Network.

Bramley House Smart Cities: Pilot on Bramley House using smart thermostats and sensors which would help to reduce the energy use and cost within homes.

Renewable Energy in Social Housing: Looking at adding solar panels to some of the blocks.

3.0 UPDATE ON COMMUNITY PROJECTS:

3.1 Education and Economic Development

Training and Employment Hub:

Felicity Maries (LWNT) updated the Partnership Board on the Training and Employment Hub.

LWNT and LWRA have a steering group and have worked on co-designing the space, with an aim to finish at the end of October.

Key updates include:

- Installation and registration of all devices - 11 Dell OptiPlex Custom Devices, including creative Adobe Package (Morley)
- Works and kit out completed by end of October
- Launch event w/c 7th November
- Current live survey on GiveMyView platform (BuiltID).

Link to the live survey:

- Ran a pilot crash course with Clement James on Public Speaking.

3.2 Sustainability and a Greener Estate

Avondale park update:

- New Outdoor Gym
- New Park Lighting
- Renovated Green Roof
- New Drinking Fountain
- Improved Disabled Accessibility to Entrances
- Educational Signage – History and Biodiversity

- New Benches
- Park Building Repairs
- Grass Reinstatement – Phase I
- Volunteering Group Established (GroundWorks)
- Improved Wild Meadows (Renovated and New Bug Hotel)
- General Redecorations (Railings and External Buildings)

Upcoming works:

- Playground Refurbishments – Senior and Junior (starting w/c 10th October 2022)
- New Planting (starting w/c 10th October 2022)
- Enclosed Woodland Area Renovation (early 2023)
- Footpath Repairs (March 2023)
- Apprenticeship Gardener Role (Avondale)

3.3 Connected Communities

School Street Consultation

Timed road closure between Lancaster Road and Cornwall Crescent between 8:45-9:10am and 3:10- 3:40pm enforced by school staff.

Link for the Consultation: <https://consult.rbkc.gov.uk/communities/thomas-jones-school-street/>

4.0 AOB:

Craig talked about the launch of the new Morley College Centre in North Kensington and invited colleagues to drop by.

Chrissy Galerakis is leaving RBKC, colleagues thanked her for her work in developing the Future Neighbourhood Vision.

No further business was raised.

ACTION SUMMARY:

ITEM REF	ACTION	OWNER	TARGET DATE
1	Hannah to look into the Imperial College London air quality study in the area	Hannah Smith	January 2023
2	Nordeen /LWNT to discuss reporting on OPE project with Adrian	Nordeen /Adrian	January 2023

NEXT MEETING: Thursday 19th January 3-4pm
