Generation

Supporting your success

We can support learners in a number of ways, to help them get the best out of our programmes.

We provide **free laptops and WiFi dongles** to anyone who needs them for up to six months after completion of the programme or until a job is secured (whichever is sooner).

We can also provide **support for parents** including flexible studying and financial support from Generation to cover childcare responsibilities.

What do our graduates think:

*“One word I would use to describe the course is a **transformative journey**. I thought I’d just learn new technical skills, I didn’t think I’d change and grow personally so much.”*
